This Office version is best for low performance PCs and it supports them It includes all the necessary components of Office and when you will see MS Word and MS Excel you will not see many changes in them.. But MS Outlook has been changed completely. MS Office has been around for quite some time and Microsoft has always provided its users with the best product ever.. There are many Office versions released by now but Microsoft Office 2003 is still fresh because of its simplicity and its speed.
