Here we look at the issue and guide you accordingly The ability to print in PDF is one of the things I love about OS X but I think it annoying to handle PDF page breaks and the pages that Camino adds to everyone especially if I do.. We recommend that you add a PDF page breaker block at the end of each section However if the problem persists you can share the sample HTML code with the expected PDF output.

Note: If you want any part of your proposal start at the top of each page in the PDF version.. Everything works but I want to add a page number and a margin at the bottom of each page and avoid cuts in the middle of a row as you can see in the picture.. Page breaks are simple HTML codes below [Torrent Program Download](#)
